Read this to connect and configure the product

## Speed Wi-Fi NEXT WX03

**Technically Certified** 

Thank you for buying the Speed Wi-Fi NEXT WX03 (simply called the "product" from here on). Before using the product, be sure to read the "Setup Guide" (this manual) and the "Notes on usage" to ensure correct use.

#### **List of Packaged Items**

Before you start using the product, make sure that you have all the following items packaged with the

Speed Wi-Fi NEXT WX03 (main unit)

☐ Battery pack (NAD33UAA)

Rear cover

microUSB cable (AL1-003329-005)

Use when connecting with the AC adapter (NAD11POA) (sold separately) to charge the product. Also use the cable when connecting this product to a PC, or when connecting the AC adapter (NAD11PQA) (sold separately) with a cradle (sold separately) to charge the product.

October, 2017

□ つなぎかたガイド "Setup Guide" (Japanese)

They may differ from the actual product.

□ ご利用にあたっての注意事項(保証書付) "Notes on usage" (with warranty) (Japanese)

Keep the packaged items, including the warranty, in a safe place.

\* An AC adapter is not included. Purchase the specified charging equipmen

(sold senarately). For details, see "Related Accessories" in "Notes on usage' The illustrations of the product used in this manual are simulated images

#### **About the Instruction Manual**

The "Setup Guide" (this manual) explains only the main operations and settings of the main functions for using this produc As an instruction manual related to the product, the "Setup Guide" (this manual), the "Notes on usage", and the "取扱説明書 詳細版 (Full Instruction Manual)" (Japanese) are available for download from the WiMAX Support Information website. In this manual, all such manuals are collectively referred to as the "Instruction Manual".

- ・ A PDF version of the "取扱説明書 詳細版 (Full Instruction Manual)" (Japanese), in which the explanations of various functions are described in detail, is also included with this product.
- Connect the product to a PC or the like by means of wireless LAN (Wi-Fi®) or a microUSB cable, launch the web browser, type "http://192.168.179.1" in the address and log in to the Advanced Settings on the Quick Setting Web to view "情報 (Information)" and access "マニュアル (Manual)
- The PDF versions of the "Instruction Manual" can be downloaded from the WiMAX Support Information website. http://www.necat.co.jp/wimax/support/ugc/wx03/index.html

#### **About the Notations in This Manual**

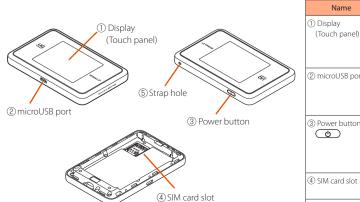

#### Notes on Illustrations / Screenshots

- The screenshots and methods of operation in this manual are those when au Micro IC Card (LTE) is inserted.
- The illustrations and screenshots in this manual are simplified and may look different from the actual illustrations and screens. Also, pare of the screen may be omitted.
- This manual uses the display of the body color "deep blue" to explain examples.
- Company names and product names referred to in this manual are trademarks or registered trademarks of their respective companies. TM and the ® mark may be omitted in this manual.

#### **About Using this Product**

- · This product can connect with WiMAX 2+
- Keep the product at least 1.5 cm away from your body, and make sure that there are no intervening metallic objects when
- Communication is not possible even in the service area in places where the signal does not reach (e.g. tunnels and basements). Also, communication is sometimes not possible in poor reception areas. Communication is sometimes interrupted if you move into a poor reception area during communications.
- Since this product uses radio waves, the possibility of communication interception by third parties cannot be eliminated
- (The WiMAX 2+ method, however, offers secure communication encryption and secrecy functions.)
- This product is designed for use in Japan only and cannot be used in any other country. Since this product is a radio station under the Radio Law, you may be asked to temporarily submit the product for
- inspection in accordance with the Radio Law. The product complies with the technical standard for specified wireless equipment based on the Radio Law/ Telecommunications Business Act, and as proof of such, the "Technical Conformity Mark 😪 " can be confirmed on the
- display (touch panel) of the product. Confirm this by tapping the home screen [Information] [Device Information], slide This product uses liquid crystal for its display. The display response speed may become slow when the ambient temperature is low, which is due to the property of liquid crystal and not a malfunction. The display response speed will
- Although the display used on the product is made using high-precision technology, some pixels (dots) might be lit or out
- Do not discard the product together with regular trash. Please cooperate in the collection of the product (optional products included) and used battery packs when they are no longer needed to protect the environment and effectively use resources. Old products and used battery packs are collected at au shops and other places

nd notification information. Main settings for the product can be packaged item) to the product, or vhen placing the product on the ci e to turn on/off the display Use to put the product in an idle state to recover from idling or waiting. Insert the au Micro IC Card (LTE) into Used to attach a strap.

#### **How to Use the Touch Panel**

This product is equipped with an intuitively operable touch panel. It operates by detecting your finger's movements using a capacitive sensing method.

The touch panel is designed to be lightly touched by fingers Do not apply strong pressure with your fingers or sharp-pointed objects (such as fingernails, ballpoint pens and pins) on the touch panel.

In the following cases, the product may not respond to touching the touch panel, or errors in operation may occur.

Operation with gloved hands Operating with drops of water or condensation on the touch panel

Operation with fingernails Operation with a foreign object placed on the touch Operation with wet or sweaty fingers Operating with two or more fingers

Operation with a protective sheet or sticker on the touch panel

Lightly touch the touch panel, and then remove your

If the lock screen is displayed, unlock it by touching the lock icon for more than one second. You are brought back to the home screen

Put your finger lightly on the touch panel and then slide your finger.

To return to the home screen, tap the button.

# Preparing for Setup

#### Inserting the au Micro IC Card (LTE)

When inserting the au Micro IC Card (LTE), disconnect the product from the power source and make sure Remove the microUSB cable and cradle (sold separately) if they are connected.

Release the lock and lift up the card slot. With the IC (metal) part of the au Micro IC Card (LTE) facing up, insert it straight into the card slot.

Push the card slot down, and lock it by sliding it in the direction of the arrow while lightly pressing the top of the metal part.

Your telephone number and other details are stored on the au Micro IC

 This product supports au Micro IC Card (LTE). \* Confirm the correct inserting direction of the IC card. Failure to do so

Do not insert the IC card forcefully. Doing so might cause failures Refrain from inserting an SD card and IC card with a conversion adapter.

\* Be careful not to touch or damage the IC (metal) part of the au Micro IC

Data communication with WiMAX 2+ cannot be done if the au Micro IC Card (LTE) is not inserted. \* An error message is displayed if the au Micro IC Card (LTE) is not properly inserted, or if there is an abnormality with the au Micro IC

## **Attaching the Battery Pack**

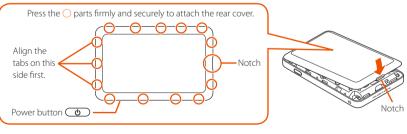

Is Ilide the battery pack into the end with the marked surface (recycling symbol, etc.) facing up.

Alian the product's terminals and the battery pack's  $\triangle$ , attach them in the direction of ①, and then set it in the direction of ②.

\* Use the battery pack specified for this product. <Removing the battery pack> Lift up the front part of the battery pack and pull it out in the direction of the arrow to remove it.

Check the direction of the rear cover and place it so that it aligns with the product. While firmly pressing the Oparts in the following illustration, attach the rear cover so that there are no gaps.

### **Charging the Product**

This section explains how to charge using the specified AC adapter NAD11PQA (sold separately) and microUSB cable (packaged item) with the product.

We recommend charging this product while the power is off or while it is idling.

If the power is on, or if the temperature of the product or battery pack is high, charging may stop even if the battery is not full in order to maintain the battery's life. Also, if you continue charging it for a long time while the power is on, the remaining battery power is automatically reduced gradually, to protect the battery, so that the highest possible charge will be about 70%. The time it takes to charge may change depending on the AC adapter (sold separately) that you are using.

ast charging is possible if you are using a common AC adapter 05 (0501PWA/0501PWV) (sold separately) For the time it takes to charge, refer to the "Product Specifications" section on the next page. Insert the microUSB connector of the microUSB cable into the microUSB port on the product. ug the microUSB connector straight into the microUSB port of this product with the side bearing the USB mark facing up

Attach the other end of the USB connector to the AC adapter (sold separately) and insert the power plug of the AC adapter (sold separately) into a power outlet.

Plug the USB connector into the AC adapter (sold separately) with its side bearing the USB mark facing down.

(NAD33PUU) 取扱説明書 (Instruction Manual of the cradle)" (Japanese).

Make sure that the AC adapter (sold separately) is in a secure position \* Pressing the Power button when charging with the power off or while idling shows how much of the battery has been charged (%).

Because the battery pack is initializing when being used for the first time after attaching it, showing how much of the battery has been charged may take some t For information on how to charge the battery pack on the cradle (sold separately), refer to the "WX03 クレードル
